Students in French-Language
Schools, 2024–2025

Highlights of the Provincial Results

Test en lecture, écriture et mathématiques, cycle moyen (6^e année)¹

The Education Quality and Accountability Office (EQAO) is an agency of the Government of Ontario that contributes to the quality and accountability of Ontario's publicly funded education system. EQAO develops and administers large-scale assessments that produce objective and reliable information to support student success. EQAO data help Ontario's education sector with improving student achievement and well-being at the individual, school, school board and provincial levels. Alongside information from other sources, EQAO data strengthen conversations about student learning across the province.

Context

Each year, EQAO reports on the results of its online provincial assessments. EQAO data act as a snapshot that shows whether students are meeting curriculum expectations in reading, writing and mathematics at key stages of their education. Results from the previous two school years are provided along with those from 2024–2025 to show trends in achievement and attitudes from year to year. Such analyses of results contribute to a better understanding of student learning over time.

Considerations

The *Test en lecture, écriture et mathématiques, cycle moyen*, administered to students in Grade 6, is an online assessment that measures the reading, writing and mathematics knowledge and skills students are expected to have learned by the end of Grade 6 according to *The Ontario Curriculum*.²

The e-assessment model allows for greater flexibility and choice for schools to administer the *Test en lecture, écriture et mathématiques, cycle moyen*, over a longer administration period: in 2024–2025, the assessment was administered from early-May to mid-June 2024.

¹ The name of the assessment remains in French, since the French- and English-language assessments are distinct in their content and the curricula they cover in reading and writing. Students in English-language schools write the Assessment of Reading, Writing and Mathematics, Junior Division.

² The introduction of a new language curriculum in 2023 required a redesign of the reading and writing components of the assessment. Additionally, new trendlines and new baselines were set, and in keeping with large-scale assessment best practices, standard setting in reading and writing was conducted to define levels of achievement.

Assessment Results³

Grade 6 student achievement results have decreased in reading, have remained the same in writing and have increased in mathematics, relative to those in 2023–2024. The three-year trend shows that the percentage of students meeting the provincial standard has decreased in reading and in writing and has increased in mathematics.

All Participating Students in 2024–2025

Reading

8363

students fully participated in the **reading component of the junior-division assessment.**

89% of fully participating students met the provincial standard (Levels 3 and 4) in reading.

Writing

8351

students fully participated in the **writing component of the junior-division assessment.**

79% of fully participating students met the provincial standard (Levels 3 and 4) in writing.

Mathematics

8354

students fully participated in the **mathematics component of the junior-division assessment.**

63% of fully participating students met the provincial standard (Levels 3 and 4) in mathematics.⁴

³ EQAO reports achievement results for fully participating students only. This includes all students who took part in the assessment and, as a result, have data.

⁴ It is encouraging to note that among the 34% of students who achieved Level 2 in mathematics (2878 students), more than half (1562 students) were close (as indicated by a high Level 2 outcome) to meeting the provincial standard and demonstrated most of the knowledge and skills required for work in subsequent grades.

Students with Special Education Needs

1681 Of the 1681 students who wrote the **junior-division** assessment and were identified as having **special education needs** (excluding gifted),

72%

met the provincial standard (Levels 3 and 4) in **reading**.

This is a **decrease** from the previous school year. The three-year trend shows a **decrease** in the percentage of students meeting the provincial standard.

57%

met the provincial standard (Levels 3 and 4) in **writing**.

This is an **increase** from the previous school year. The three-year trend shows a **decrease** in the percentage of students meeting the provincial standard.

37%

met the provincial standard (Levels 3 and 4) in **mathematics**.

This is an **increase** from the previous school year. The three-year trend shows an **increase** in the percentage of students meeting the provincial standard.

Students Who Are French-Language Learners⁵

1659 Of the 1659 students who wrote the **junior-division** assessment and were identified as **French-language learners**,

82%

met the provincial standard (Levels 3 and 4) in **reading**.

This is a **decrease** from the previous school year. The three-year trend shows a **decrease** in the percentage of students meeting the provincial standard.

69%

met the provincial standard (Levels 3 and 4) in **writing**.

This is **the same** as the previous school year. The three-year trend shows a **decrease** in the percentage of students meeting the provincial standard.

53%

met the provincial standard (Levels 3 and 4) in **mathematics**.

This is an **increase** from the previous school year. The three-year trend shows an **increase** in the percentage of students meeting the provincial standard.

⁵ French-language learners are students benefiting from *Actualisation Linguistique en Français* or the *Programme d'appui aux nouveaux arrivants*.

Cohort Tracking

Cohort tracking helps the education community understand student learning trends and informs appropriate actions for improvement.

EQAO's large-scale assessments provide consistent data to track student achievement from elementary to secondary school, offering evidence-based insights into performance trends over time. This data benefits all Ontarians invested in student success by supporting collaboration among parents and guardians, educators and other school staff. By fostering informed discussions, cohort tracking data helps shape strategies to meet diverse learning needs effectively.

Tracking Student Progress in Reading, Writing and Mathematics from Grade 3 in 2021–2022 to Grade 6 in 2024–2025

The charts below show the performance of the 2024–2025 school year Grade 6 students, who were in Grade 3 for the *Test en lecture, écriture et mathématiques, cycle primaire*, in 2021–2022.

Students in French-Language Schools

There were

7403

students included in the cohort (these students were in Grade 3 during the 2021–2022 school year and in Grade 6 during the 2024–2025 school year). Results for this cohort are as follows:

Reading

7356

There were 7356 students in this cohort.

Note: Numbers have been rounded off to the nearest whole percentage.

Most French-language students who took the EQAO Assessment of Reading, Writing and Mathematics in Grade 3 in 2021–2022 and in Grade 6 in 2024–2025 either maintained or rose to the standard in literacy (88% in reading and 79% in writing) and in mathematics (63%).

Learners' Context

EQAO's student and educator questionnaires are completed during the assessment administration and offer valuable attitudinal and contextual information about students' experiences and perceptions with respect to literacy and numeracy. This type of information is important and should be considered alongside assessment results and data from other sources to build a full understanding of student learning in Ontario.

Overall, 99% of fully participating students completed the Student Questionnaire, 137 teachers completed the Teacher Questionnaire, and 177 principals completed the Principal Questionnaire. Principals were only required to answer the questionnaire once for both the primary- and junior-division assessments.

Interest and Confidence in Literacy

Reading

Overall,

Writing

Overall,

Interest and Confidence in Mathematics

Overall,

61%
of students **like math**.

58%
of students think that they are **good at math**.

73%
of students indicated that **being good at math is important to them**.

51%
of students indicated that **math is one of their favourite subjects**.

Growth Mindset in Mathematics

Overall,

89%
of students think that a **person can always get better at math**.

72%
of students think that **almost everyone can understand math** if they are able to work at it.

Technological Access and Savviness

Overall,

60%
of students indicated that they are able to use the **Internet at home** to complete their school work.

71%
of students indicated using **technology** to learn new things.

Self-Directed Learning and Collaboration

Overall,

80%
of students indicated that **they keep trying** if they make a mistake or if something is difficult.

84%
of students indicated that **doing their best** at school is important to them.

73%
of students think that **learning in groups** is a good way to learn.

Teaching Transferable Skills

Overall,

of teachers indicated that they incorporate student development of transferable skills such as **critical thinking** and **problem solving** (e.g., addressing complex issues, making informed decisions, analyzing information) into their general practices.

of teachers indicated that they incorporate student development of transferable skills such as **communication** (e.g., speaking, writing, listening) into their general practices.

Use of EQAO Data

Overall,

of principals indicated that they plan to use this year's EQAO data to identify how well students are meeting **curriculum expectations**.

of principals indicated that they plan to use this year's EQAO data to inform **program planning**, **resource allocation** or **teaching practices**.

The Education Quality and Accountability Office (EQAO) is a board-governed agency of the Government of Ontario dedicated to enhancing the quality and effectiveness of the province's public education system. Our award-winning large-scale assessment program and research initiatives offer accurate, relevant data and insights on student achievement and attitudes. At EQAO, our belief is that learning never ends—and so neither does our mission to contribute to improving outcomes for all students across Ontario.
